VOLUME CONTENTS

Volume 11 Numbers 1/2

Shi-Lun Guo, G. Tress, P. Vater, E. U. Khan, R. Dersch, M. Plachky, R. Brandt and **H. A. Khan**	1	New approach to increase the gas throughput through mica track microfilters by changing their pore structure
P. Vater, E. U. Khan, R. Beckmann, P. A. Gottschalk and **R. Brandt**	5	Sequential fission studies in the interaction of 9.03 MeV/N ^{238}U with ^{nat}U using mica track detectors
H. B. Lück	17	On tree initiation and propagation in electrochemical etching of particle tracks
M. Fujii and **J. Nishimura**	25	Generalized etch-pit equations and their application to analyses of tracks in CR-39 with depth-dependent etching properties
M. Zamani and **S. Charalambous**	35	Light particle discrimination using CR-39
M. Zamani, M. Manolopoulou and **S. Charalambous**	39	Etching properties of CN-85 plastic track detector
P. Yu. Apel and **G. Pretzsch**	45	Investigation of the radial pore-etching rate in a plastic track detector as a function of the local damage density around the ion path
J. S. Yadav, V. P. Perelygin and **S. G. Stetsenko**	55	Annealing studies of charged particle tracks in olivine crystals
N. Petoussi, S. A. Durrani, J. H. Fremlin and **H. U. Mast**	59	Neutron-beam depth-dose dosimetry and spectrometry in water phantom using SSNTDs and multigroup transport calculations
R. Dersch, E. U. Khan, P. Vater, Shi-Lun Guo, E. M. Friedlander, V. Perelygin and **R. Brandt**	67	On the track length of uranium ions of various energies in olivine crystals
C. Perron and **M. Maury**	73	Very heavy ion track etching in olivine
J. Kvasnicka	81	Theory of alpha activity measurement by nuclear track detectors
S. L. Koul, L. T. Chadderton and **F. L. Sutherland**	85	On the annealing behaviour of fission tracks in zeolites
Short Communications		
D. Albrecht, E. Balanzat and **K. Schaupert**	93	X-ray small angle scattering investigation of high energy Ar-tracks in mica
D. O'Sullivan, A. Thompson and **P. H. Fowler**	95	The abundance of actinide elements in the galactic cosmic radiation
Y. Komaki, S. Ohno, H. Ohtsu, H. Ito, T. Seguchi and **M. Iwasaki**	99	Heavy ion track registration in polyvinylidene fluoride
Educational Section		
R. K. Bull	105	Thermoluminescence and its applications: an introduction
New Patents	i	

Volume 11 Number 3

S. H. Huang, T. H. Lin, C. S. Su and **P. S. Weng**	115	Analysis of sparking technique for counting and magnification of etched holes in cellulose nitrate films
G. Bigazzi, F. Bonadonna and **J. C. H. Neto**	123	Contribution to statistics in fission track counting
N. E. Ipe and **P. L. Ziemer**	137	Effect of annealing on track density in unirradiated and gamma irradiated CR-39 when used for fast neutron detection

C. Furetta 141 Theoretical considerations of the TL response after irradiation-storage periods at various temperatures

W. R. Ellis 147 Calibration of nuclear track methods for uranium estimation and the determination of the effective ranges of nuclear particles in ashed biological material

Y. Komaki and **H. Ohtsu** 151 The effect of coexistent gases during fission fragment irradiation on track etching in polyvinylidene fluoride film

Educational Section
J. Azorín 159 Determination of thermoluminescence parameters from glow curves—I. A review

J. Azorín and **A. Gutiérrez** 167 Determination of thermoluminescence parameters from glow curves—II. In $CaSO_4$:Dy

Conference Report
M. Sohrabi 175 The Thirteenth International Conference on Solid State Nuclear Track Detectors

New Patents i

Software Survey Section I

Volume 11 Numbers 4/5

F. H. Ruddy, J. H. Roberts and **E. P. Lippincott** 183 Solid state track recorder neutron dosimetry in a simulated basalt geological waste repository

F. H. Ruddy, J. H. Roberts, L. S. Kellogg, R. Gold, E. P. Lippincott, C. C. Preston, L. Leenders, A. Fabry, E. D. McGarry and **M. F. Murphy** 189 Solid state track recorder fission rate measurements in low power light water reactor pressure vessel mockups

F. H. Ruddy and **J. H. Roberts** 193 Solid state track recorder fission rate measurements at high neutron fluence and high temperature

F. H. Ruddy 197 Neutron dosimetry in high intensity fields: a review

R. F. Galbraith 201 Allocation of grains in the population method of fission track dating

D. A. Bradley, C. S. Chong, A. Saat and **A. M. Ghose** 205 Fast-neutron-induced track formation in LR-115 and CR-39

P. De Cannière, R. Debuyst, F. Dejehet, D. Apers and **R. Grün** 211 ESR dating: a study of ^{210}Po-coated geological and synthetic samples

V. E. Kopchenov and **V. A. Nikolaev** 221 Optimum etching of a phosphate glass spectrometric detector

T. Hashimoto, Y. Hayashi, A. Koyanagi, K. Yokosaka and **K. Kimura** 229 Red and blue colouration of thermoluminescence from natural quartz sands

K. D. Crowley 237 Neutron dosimetry in fission-track analysis

T. V. Ramachandran, B. Y. Lalit and **U. C. Mishra** 245 Measurement of radon and thoron present in the environment using nuclear track etch detector technique

H. Takamiya and **S. Nishimura** 251 Thermoluminescence ages of some volcaniclastic materials

D. Seward and **D. A. Rhoades** 259 A clustering technique for fission track dating of fully to partially annealed minerals and other non-unique populations

Letter to the Editor
G. A. Wagner 269 Comments on the paper "Fission track annealing in apatite: track length measurements and the form of the Arrhenius plot"

Conference Report
D. T. Bartlett 271 First Meeting of the UK Neutron Dosimetry Track Etch Forum

Book Reviews 273

Errata 275

New Patents i

Software Survey Section I

Volume 11 Number 6

K. James and **S. A. Durrani** 277 The effect of crystal composition on fission-track annealing and closure temperatures in geological minerals: implications for the cooling rates of terrestrial and extraterrestrial rocks

M. Ginjaume, C. Baixeras, F. Fernández and **A. Vidal-Quadras** 283 Temperature effect in stratospheric balloon flight exposure of CR-39 plastic detector

B. S. Carpenter, C. Horvath and **C. R. Vogt** 289 The production of porous glass microspheres by the nuclear track technique

R. F. Galbraith 295 Statistical analysis of C. W. Naeser's Fish Canyon zircon data

R. Katz, G. L. Sinclair and **M. P. R. Waligórski** 301 The Fricke dosimeter as a 1-hit detector

M. P. R. Waligórski, R. N. Hamm and **R. Katz** 309 The radial distribution of dose around the path of a heavy ion in liquid water

Short Communications
J. Blusztajn 321 Variations in spontaneous fission track density in fast cooling sphene using three different etchants

H. S. Virk, S. K. Modgil and **R. K. Bhatia** 323 Activation energy for the annealing of radiation damage in CR-39: an intrinsic property of the detector

Letters to the Editor
C. A. Perks and **R. K. Bull** 327 Fading of thermoluminescence in materials exhibiting second order kinetics

A. J. Hurford 329 Standardization of fission track dating calibration: results of questionnaire distributed by International Union of Geological Sciences Subcommission on Geochronology

Conference Reports
K. Becker 335 The Eighth International Conference on Solid-State Dosimetry

K. Becker 337 IV European Congress and XIII Regional Congress of IRPA

Book Reviews 339

Announcement 341 Fifth International Specialist Seminar on Thermoluminescence and Electron-Spin-Resonance Dating
